

LOWER SAN PITCH RIVER DISTRIBUTION SYSTEM

SYSTEM

** 1969 ASSESSMENT **

\$ 3,500.00

FORWARD:

As per the minutes of the meeting of the Water Users of the Lower San Pitch River Distribution System and the State Engineer held August 7, 1968 in Manti, Utah, it was decided that the budget and assessment for 1969 would be in the amount of \$ 3,500.00.

CALCULATION:

The "assessment data" or number of irrigated acres of ground was reported as having to be the basis for the first couple of years until enough records of amounts of water used would be available.

It was reported that 32,258.20 acres of ground are to be irrigated and \$ 3,500.00 divided by 32,258.20 equals \$ 0.1084995444, cost of one pro-rated acre of ground times the amount of acres as listed for each water user equals his or her 1969 Water Assessment.

PROOF:

32,258.20 times \$ 0.1084995444 equals \$ 3,500.00
